PROFESSIONAL SUMMARY

Full-stack Django developer with hands-on experience building scalable web applications including e-commerce platforms, booking systems, and automation tools. Strong in backend development, REST APIs, and database design, with the ability to create responsive and user-friendly interfaces.

TECHNICAL SKILLS

Languages	Python • JavaScript • HTML • CSS
Frameworks	Django • Flask • React.js • Bootstrap
Databases	MySQL • SQLite
Tools	Git • VS Code • xhtml2pdf
Concepts	REST APIs • Authentication • Payment Integration (Razorpay) • Responsive Design

PROJECT EXPERIENCE

Django E-commerce Platform — PetPalooza

Technologies: Python • Django • Razorpay • Bootstrap

- Developed a full-featured e-commerce web application using Django.
- Implemented authentication, cart system and Razorpay payment integration.
- Built order tracking with shipment status and live location.
- Designed responsive UI using Bootstrap.

Bike Reselling Marketplace

Technologies: Python • Django • HTML • CSS

- Built a platform for buying and selling used bikes.
- Implemented product listing, filtering, and user interaction features.

Employee Payslip Generator

Technologies: Python • Django • xhtml2pdf

- Created payroll system to generate automated PDF payslips.
- Used Django backend with xhtml2pdf for document generation.

PROJECT EXPERIENCE — CONTINUED

➤ Supermarket Billing System

Technologies: Python • Tkinter • SQLite

- Developed desktop billing application using Tkinter and SQLite.
- Managed product inventory and billing calculations.

Electrical Service Booking Website

Technologies: Python • Django • HTML • CSS

- Built service booking system with user registration and scheduling.
- Implemented request tracking and admin management.

Recipe Sharing Website

Technologies: Python • Django • HTML • CSS

- Developed platform for sharing recipes with search and filtering features.

EDUCATION

B.Tech - Information Technology

Anna University, Tirunelveli 2014

ACADEMIC PROJECT

Secure Cloud Storage for Privacy-Preserving Public Auditing

Technologies: ASP.NET

- Implemented secure cloud storage with third-party auditing
- Used homomorphic authenticators for data integrity and privacy
